TOSHIBA AIR CONDITIONING PRICE LIST 2020

 **Better Air Solutions**

Our vision is to be the No. 1 supplier in the UK of the most technologically-innovative, energy-efficient and environmentally-friendly heating and cooling solutions, combined with a first-class level of customer support.

We provide a number of key services to our customers, these include the following:

- **Spare Parts Availability** - Large stock, European warehouse based in the UK offering a 24-hour turnaround from point of order, including online parts availability check and ordering.
- **Pre-Sales Support** - Offering project support and assistance, equipment schedules, mechanical and electrical schematics and equipment selection.
- **Dedicated Training Sessions** - Training sessions are offered to our customers throughout the year and cover all elements from design and application, installation through to servicing and fault finding. The extensive programme can be delivered at one of our dedicated centres free of charge.
- **Controls** - Full support with an extensive range of standard control systems including bespoke controls and full site support functions to maximise efficiency.
- **Rewards Scheme** - The original and best scheme in the industry offering the most innovative customer reward scheme that sets the bar in terms of support.
- **Energy Efficient** - Industry leading SEER & SCOP figures on our range of equipment, and a commitment to continuous development of energy efficient sustainable solutions.
- **Warranty** - The only air conditioning manufacturer to offer a fully comprehensive warranty scheme, which emphasises our commitment to our customers and confidence in our equipment, with up to 7 years available with full labour content.
- **Technology** - Leading innovation by introducing reliable, innovative and cutting edge technology into our air conditioning systems.
- **24 Hour Helpline** - The only manufacturer in the UK to offer a 24 hour, 7 days per week, technical helpline where you can speak to a trained engineer for support as well as offering a full fault code text back service.
- **Support Tools** - We offer an extensive range of easily accessible support tools including smart phone apps and web based solutions.
- **Network** - A nationwide distribution network, providing easy access to Toshiba equipment, spare parts and services.
- **Technical Engineering Team** - An extensive range of site services available through our fully trained and highly experienced technical engineering team.
- **Carbon Neutral** - Toshiba are the only Carbon Neutral manufacturer of air conditioning products in the UK.
- **Leak Detection** - Toshiba provide the industry's only leak detection system capable of providing BREEAM points.

Warranty Schemes

All air conditioning products distributed by Toshiba Air Conditioning and supplied by Toshiba Carrier UK Limited to Toshiba T5 registered installers or Refcom (or equivalent) F-Gas registered installers, T7 approved partner or T7 enhanced warranty partner are warranted free from defects in manufacture, materials or workmanship for a period of:

5 years - Toshiba T5 registered installers or if installed by Refcom F-Gas registered installers

7 years - Toshiba T7 approved partner or Toshiba T7 enhanced warranty partner

from the date of delivery to the address specified by the Customer within the individual orders. In no event shall the warranty exceed 6 months from manufacture plus the relevant warranty periods above of 5 years or 7 years as applicable above under the terms of the individual order. The date of manufacture shall be determined by the serial number of the equipment in question. In cases where a complete unit is replaced, the replacement shall assume the remainder of the warranty period of the original unit or twelve months whichever is the longer.

Technical Services

Toshiba Air Conditioning offers a full and comprehensive technical service to our customers, starting with a 24/7 telephone technical response service. Enquiries are handled by trained technical engineers with "hands on" field experience of air conditioning systems enabling them to provide a vast knowledge of Toshiba air conditioning products.

Site Visits

Technical assistance for trouble shooting equipment on-site provides field support for the diagnostics of malfunctions of equipment which is either inside or outside of the Toshiba Warranty Period.

Health Check

The system health check provides field support to carry out a detailed health check for Toshiba VRF equipment, R22, R407C and R410A.

VRF Commissioning

The commissioning service provides field support services to commission Toshiba R410A VRF equipment. Please consult the "Toshiba Technical Services Price List" for more information.

The information shown in this Price List is based on the following data:

- Nominal capacities are based on NEMA - Cooling: indoor air temperature 27°C DB/19°C WB, outdoor air temperature 35°C DB/24°C WB. Heating: indoor air temperature 20°C DB, outdoor air temperature 7°C DB.
- UK capacities are based on the following conditions - Cooling: indoor air temperature 23°C DB/16°C WB, outdoor air temperature 29°C DB, 5 m or 7.5 m (dependent on mode) pipe run and high fan speed. Heating: indoor air temperature 20°C DB, outdoor air temperature -5°C DB/100% RH, 5 m or 7.5 m pipe run and high fan speed. Values are based on the maximum compressor output.
- The sound pressure levels are based on - Outdoor units at 1 m distance, indoor units at 1.5 m distance.
- The maximum run current is based on 230 V/1 phase/50 Hz or 380 V/3 phase+N/50 Hz.

IMPORTANT NOTICE

The Toshiba Air Conditioning Price List and information contained therein has been obtained from the manufacturer. The details are subject to change from time to time and availability of the products cannot always be assured at short notice. Toshiba Carrier UK Ltd shall bear no liability for information contained within this document and it is incumbent on purchasers to make enquiries prior to placing any order.

The relevant terms contained within the Toshiba Carrier UK Ltd Terms of Sale and Installation (available on the following website: www.toshiba-aircon.co.uk) shall apply unless the purchaser has alternative signed terms of agreement with Toshiba Carrier UK Ltd.

Toshiba Air Conditioning

It's What We Do

We provide an extensive range of air conditioning systems for a wide variety of residential, commercial and business environments. All of our products provide a cost-effective solution for heating and cooling of buildings and are engineered with energy efficiency and reliability in mind, complying with European Eco-Design guidelines. Our residential air conditioning products feature modern designs with energy savings that create a comfortable atmosphere.

Our commercial systems include advanced solutions to ensure the thermal comfort and flexibility of offices, hotels and industrial buildings, with environmental initiatives such as R22 replacement technology.

With the total energy consumption of many buildings increasing, it is important to achieve energy savings in the field of comfort heating and cooling. That's why we've put emphasis on the development of innovative solutions within our compressors, coil technology and hybrid inverter controls that result in the improvement of the air conditioning system in terms of both performance and operating efficiency offering the highest levels of user comfort, superior air flows and improved energy consumption.

Eurovent Certification certifies the performance ratings of air conditioning and refrigeration products according to European and international standards.

Toshiba's participation in the Eurovent program is a guarantee to its customers and users that our products will operate in accordance with the design specifications, that the data published and communicated are real and therefore the energy consumption and costs are correctly stated.

Reliable Solutions For The Commercial Market

Toshiba provides solutions for a wide range of sectors from large commercial offices, department stores, hospitals and laboratories through to smaller high street stores, food outlets, offices and server rooms. Our years of experience working with installers, retailers and specifiers have helped us to identify the challenges faced by our customers to develop bespoke solutions that exceed expectations.

"As a result of our extremely low failure rate, Toshiba offers an industry-first 7-year 'Comprehensive Warranty'."

Training Toshiba Professionals

Toshiba Carrier UK Ltd is proud to be part of Carrier Corporation, a global group of companies built up of specialist industry leaders. Toshiba Air Conditioning is no exception. Toshiba is committed to ensuring that our customers receive the highest level of support and training to enable them to deliver technical excellence and expertise to the users of Toshiba air conditioners. Our training programme contains ten primary courses, four of which are mandatory to comply with our warranty terms and conditions:

- Residential and light commercial (RAS/DI/SDI) - installation and service
- Commercial range (VRF) - installation and service
- Controls
- Refresher course (RAS/DI/SDI/VRF)
- Thermodynamics and basic air conditioning principles
- Basic practical air conditioning installation and fault finding
- Commercial range (VRF) - design and application
- Refrigerant leak detection systems
- Air-to-water systems (Estia)
- Understanding legislation and EUP Lot 10
- *Mandatory courses*

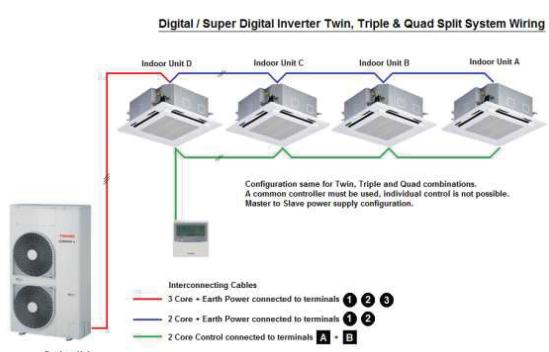

All of our training courses have been devised to ensure that we offer professionals the product and development training they require and deserve to deliver the highest possible standards. It also confirms our support to the industry in ensuring that high levels of professionalism are encouraged and maintained in our efforts to deliver excellence in all aspects of our supply chain. Delegates attending these courses receive electronic copies of the presentation material, course notes, a Technical HandBook Manual, certificate of achievement and personal Cardholder Identification Card valid for 3 years from date of registration.

Our courses are informative, beneficial and assist and enable professionals to deliver the right skills set required for the successful installation, service and maintenance of Toshiba air conditioners and applied products, and accordingly ensure the longevity of the equipment for the user. Delegates can register their interest in any course by simply contacting a local Toshiba Distributor or alternatively the Toshiba Training Team to discuss any requirements on:

Tel: 0870 843 333

or e-mail: toshiba.training@toshiba-ac.com

Training courses are conducted at our dedicated training facilities located in Leatherhead and Manchester. We are able to offer nine other training facilities located throughout the UK which are conducted by our distribution network. Each location has their own dedicated trainer to deliver the courses set out above.

Online Spare Parts

Meeting Your Needs

As a direct result of feedback we received from our customers both in the UK and across Europe we developed a single point of contact for our "Spare Parts Centre" covering all products produced and manufactured in Japan, Thailand and UK in one website with a straightforward search facility.

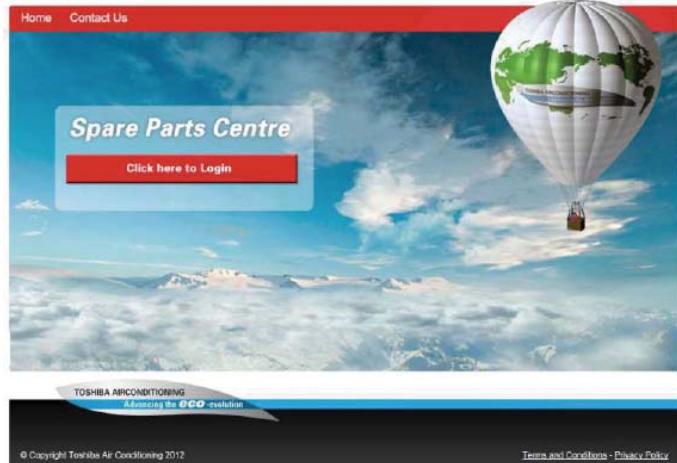

Features include:

- Search by model facility
- Full parts listing by model
- Exploded views in .pdf format
- Price and availability enquiry
- Option to place an order

The Toshiba Spare Parts Centre is accessed via:

www.toshiba-hvacspares.com

Simply register for secure access which is achieved using the website login page. Validated Toshiba customers receive a confirmation e-mail with attached user instructions typically within 24 hours of the application. We suggest and recommend that applicants use their e-mail address for the User Name.

Entirely scalable solutions

Toshiba Air Conditioning develops cutting-edge technologies and advances that benefit people everywhere by offering the ideal combination of comfort and ecologically-superior products for residential, light commercial and large building applications.

Toshiba Air Conditioning is the pioneer of inverter air conditioning technology which was developed in-house.

Superior manufacturing quality

Toshiba Air Conditioning's innovations ensure comprehensive building air conditioning solutions which have been subject to strict evaluation testing to guarantee world-class reliability.

Third party institute certifications for quality, safety and performance, guaranteed (TÜV, Eurovent, WEEE, RoHS, REACH, Intertek, NFPAC Certita, WPZ).

The indoor unit prices shown are the total retail price for the 2, 3 or 4 indoor units required for that particular combination. The total retail price includes 1 x RBC-AMT32E remote controller and the branch pipe kit (triple systems only). Accessory price breakdown available on page 209 to page 217. If the outdoor units are used as part of a twin-split, then restrictions on pipe lengths apply. Please consult the technical manual for full technical specifications.

RAS RESIDENTIAL AIR-TO-AIR

When technology meets comfort

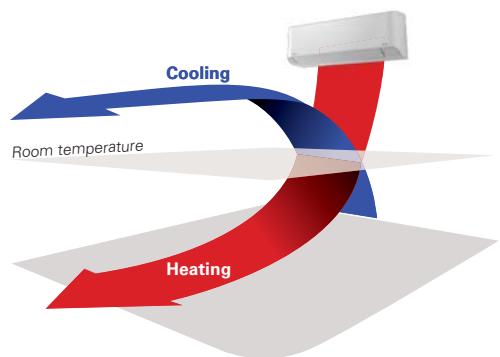

› Innovation, efficiency, high reliability, energy savings, environmental respect ...

These are the powerful values at the heart of Toshiba's DNA.

For over 50 years Toshiba has been providing its clients with the guaranteed accuracy and expertise of flawless Japanese quality. Technological, stylish, highly-efficient and environmentally-friendly, the Toshiba monosplit units proudly uphold the values rooted firmly in its name.

› The development of the new and exclusive DC hybrid inverter system has reaffirmed the ability to innovate and maintain technological leadership in a fast-growing market. But for Toshiba, innovation also means a strong commitment to international institutions that carefully evaluate the impact of new technologies on our environment. Toshiba combines technological development with care for future generations: the result is a range of extremely energy-efficient air conditioners, reducing greenhouse gas emissions at source.

Toshiba continues research into the development of PWM technology, which together with the traditional PAM control, allows total control of the system's performance and energy usage.

PAM (Pulse Amplitude Modulation) for the highest levels of power.

PWM (Pulse Width Modulation) for energy efficiency.

The future is now

› Energy efficiency by design

Toshiba products are designed to optimise energy performance at any time of year. This in turn reduces the amount of indirect CO₂ emissions generated by the electricity consumption.

› Lowest level refrigerant charge

Toshiba is committed to minimising the refrigerant charge of its products and has made this a key performance indicator for all new product developments.

› European F-GAS regulation

R32 is today the right alternative to R410A. The European F-gas regulation (517/2014) has been in force since 1 January 2015 and will progressively phase down the use of hydrofluorocarbons (HFCs) in the heating and cooling systems of the future. Toshiba already offers new heating and cooling systems operating with R32, which will be the alternative to R410A in the years ahead. The new R32 refrigerant ensures an ideal balance between energy-efficiency and respect for the environment. The quantities of HFCs that are placed on the market will be gradually reduced in a step-by-step approach, until they finally reach a minimum level by 2030.

- Floor-mounted bi-flow
- Single-split
- Self-cleaning
- Remote control included
- Automatic restart
- Dry function
- Hi-power
- ECO logic
- Auto-diagnosis
- Drain connection both sides
- Anti-dust pre-filter
- Toshiba IAQ filter

> MULTI-SPLIT INVERTER R32

Comfort and flexibility

- Toshiba inverter multi-split systems feature higher standards of indoor air quality, sound levels and environmental awareness. Special attention has been dedicated to night-time comfort, with the improvement of the silent operation mode, available in indoor units.
- One outdoor unit can serve up to five indoor units for exceptional flexibility and reliability. Toshiba inverter multi-split system outdoor units are lightweight and compact. Just one outdoor unit takes up little space on a wall or in a yard. It keeps the exterior of buildings neat with quieter operation. Choose from four types of indoor units, High-Wall, Ducted, Compact 4-Way Cassette and Console type to suit any application.

High-quality and savings

- Toshiba high-quality multi-split systems contribute to reducing drastically operating costs and increasing energy efficiency. The multi-split outdoor unit achieves efficiency in partial load conditions where the Toshiba inverters deliver their best performance. Toshiba's new super-efficient DC twin-rotary compressor enables top-class performance at low energy consumption (SEER up to 6.90 and SCOP up to 4.60). With this efficient unit, operating costs decrease dramatically, compared to other multi-split systems.
- Toshiba solutions are studied and verified in every tiny element and are recognised universally by air conditioning professionals for their total reliability. In fact, Toshiba quality has always been a priority both for today and into the future. The quality of Toshiba products will continue to differentiate us from other manufacturers.

Fast and precise
temperature
management,
with Toshiba twin-rotary
inverter compressors.

> MULTI-SPLIT INVERTER R32

Luxury through technology in RAS multi-split inverter systems

- From two to five rooms with this high-efficiency product.
- Just one outdoor unit can serve up to five indoor rooms.
- Wide choice of internal units: High-Walls, Cassettes, Duct-type and/or Console.
- Compressor DC twin-rotary throughout the whole range.
- Large operating range down to -20°C in heating mode and up to +46°C in cooling.
- Up to 80 metres of frigorific connections for any installation type.
- Full line-up available with R32.

Space-saving and silent

- Toshiba multi-split inverter system outdoor units are lightweight and compact. Just one outdoor unit takes up little space on a wall or in a yard. It keeps the exterior of buildings looking neat and offers quiet operating noise levels.

> DIGITAL INVERTER

Toshiba continues to improve its range of split systems dedicated to commercial applications. Digital Inverter (DI), compact and already previously highly efficient has been totally redesigned. The performance of these systems provides significant energy savings for a rapid return on investment. Comfort, ease of installation and simplicity are the strength of Toshiba systems.

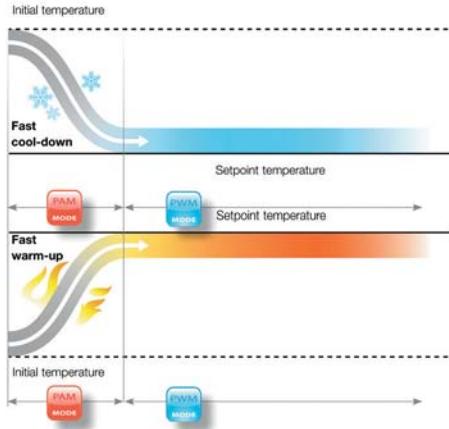

> Small and light chassis

- Less than 900 mm up to 5 hp, the Digital Inverter is extremely compact and can be installed in very small places. In addition, chassis under 5 hp are less than 70 kg.

> Smart Inverter

- Hybrid inverter control combines two intelligent control mechanisms to reach the setpoint temperature as quickly as possible with maximum efficiency:
 - the PAM mode, quickly achieves high capacity and desired comfort.
 - the PWM mode minimises power input to maximise efficiency.
- The result: high efficiency level.

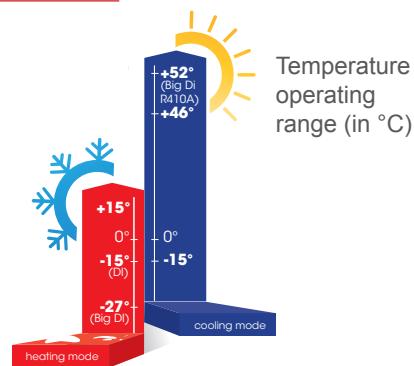

> Wide capacity range

- 9 sizes from 1 hp to 10 hp with 1 ph or 3 ph electrical connections to cover every type of project from the 15 m² room to the 200 m² shop in both new construction and refurbishment.

	1 hp	1.5 hp	2 hp	3 hp	3.5 hp	4 hp	5 hp	6 hp	8 hp	10 hp
	✓	✓	✓	✓	✓	✓	✓	✓		
3 ph						✓	✓	✓	✓	✓
								✓		
3 ph								✓	✓	✓

> Operating temperature range

- Heating operation is possible starting from an outdoor temperature of -15°C (-25°C for Big DI), while cooling operation is possible at -15°C and up to 46°C (52°C for Big DI R410A) outdoor temperature.
- This enables wider applications and usage of the system everywhere.

> SUPER DIGITAL INVERTER

Toshiba Super Digital Inverter series air conditioners combine economy and ecology in a compact body. They feature state-of-the-art technology, flexible control, and easy installation to bring natural comfort and convenience to any business environment. SDI outdoor units are compatible with a complete range of indoor units: Cassette, Ducted, Ceiling and High-Wall units.

> Maximum efficiency

- Very efficient energy consumption, keeps down operating costs: SEER of 9.40 and SCOP of 5.51 achieved by Toshiba's unrivalled Super Digital Inverter technologies and newly-developed components.

- Top-class seasonal efficiency
- Lower stand-by power
- Energy monitoring
- Wider operating range

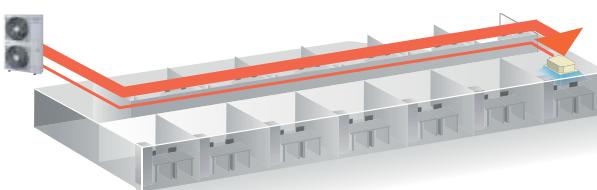

> Ideal couple: DC twin-rotary compressor and vector-controlled inverter

- The benefits of inverter technology are further optimised in combination with Toshiba twin-rotary compressors. These allow excellent speed control in the capacity range from 20 to 100% capacity: this is an exclusive Toshiba benefit!

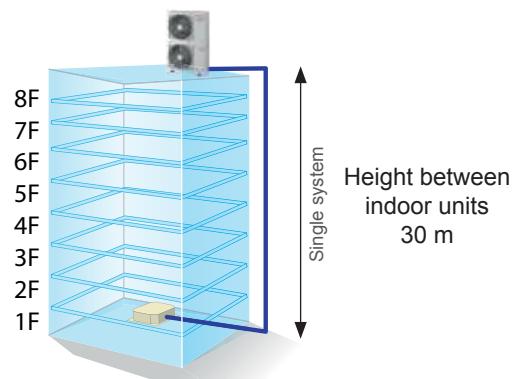

> Piping flexibility

- Super Digital Inverter leads the industry with support for height differences of up to 30 metres on a single system. That is enough height to cover an 8-storey building. Enabling the outdoor unit to be installed out of sight increases installation flexibility (only 4 and 5 hp).

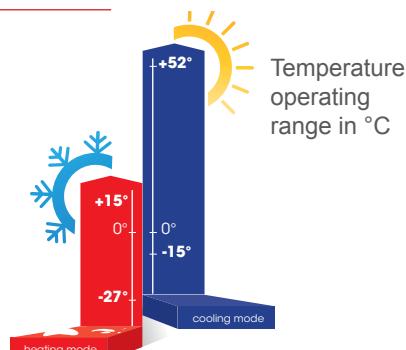

Farthest equivalent length 75 m

Calculated at 3.5 metres per floor

> Operating temperature range

- Heating operation is possible starting from an outdoor temperature of -27°C to create a comfortable space even during cold winters, while cooling operation is possible up to 52°C outdoor temperature. This enables wider applications and use of the system in colder regions.

RBC-SMT1	CN02 Connector Timer Interface Lead	Lead to provide ON/OFF control from the RBC-AMT32E remote or any central controller	£10
TCB-TC41LE	Remote Sensor	Room temperature sensing in conditioned space	£71

Concealed false ceiling installation

Auto-diagnosis

Low ambient cooling to -15°C DB

Automatic restart

Self-cleaning

Single-split

Chargeless

Wired controller

Built-in drain pump

Floor-Mounted Cabinet Indoor Unit

Refrigerant replacement technology

Standard factory-fitted filter installed within the refrigerant circuit of Digital Inverter and Super Digital Inverter R410A and R32 refrigerant outdoor units, enables reuse of existing pipework designed for R22, R407C and other common refrigerants subject to correct installation procedures and standards. High-mesh filters and stable lubricant oil guard against chloride compounds, and combined with high-tech Toshiba control intelligence, make DI and SDI outdoor units compatible when reusing existing pipework installations. This solution offers significant benefits in terms of energy-efficiency and economy.

Replacement technology piping specification RAV

Existing piping connection with different diameter gas and liquid line is possible using the criteria detailed below

Liquid Pipe Size "		1/4 (STD)				3/8 (1-size larger)					
Gas Pipe Size "		3/8 (STD)		1/2 (1-size larger)		3/8 (STD)		1/2 (1-size larger)

	24			25	15

Smaller Pipe Sizes (Performance capacity is reduced due to the effect of gas pipe size being smaller than standard connection)

Normal Pipe Sizes

Larger Pipe Sizes

Not Compatible

➤ **MiNi SMMS-e, SMMS-e, SHRM-e**

➤ **CREATING BENEFITS AROUND COMFORT**

**➤ Benefits
for the consultant**

Absolute customisation ...

A wide range of products ensures that the customers' requirements are fully addressed

Absolute validation ...

Toshiba's VRF units are EUROVENT-certified and adhere to all current European legislations

Absolute control ...

Fully-integrated controls network, allowing unlimited access to the system controls and its operation

Absolute flexibility ...

A high degree of system flexibility, aided by a fully-flexible piping specification and an extremely compact modular design

Simplified design ...

TOSHIBA DESIGN AIRS software makes the selection of a system's components simple

**➤ Benefits
for the user**

Infinite comfort ...

Achieved by fully-controllable room temperature, a perfect alternative to traditional heating and cooling systems

Infinite efficiency ...

Low operating costs, reduced installation costs and very high levels of efficiency via optimal load adjustment

Infinite integration ...

Cooling, heating and fresh air ventilation, all perfectly and conveniently attuned to one another within a single system – and so easy to use

Infinite reliability ...

Hassle-free operation based upon decades of experience and intensive testing program for all systems

Infinite transparency ...

Clearly defined billing so you can quickly review energy costs and consumption

**➤ Benefits
for the installer**

So simple ...

One supplier – one point of contact for a total solution: cooling, heating, hot water, ventilation and controls

So versatile ...

Maximised installation flexibility

So convenient ...

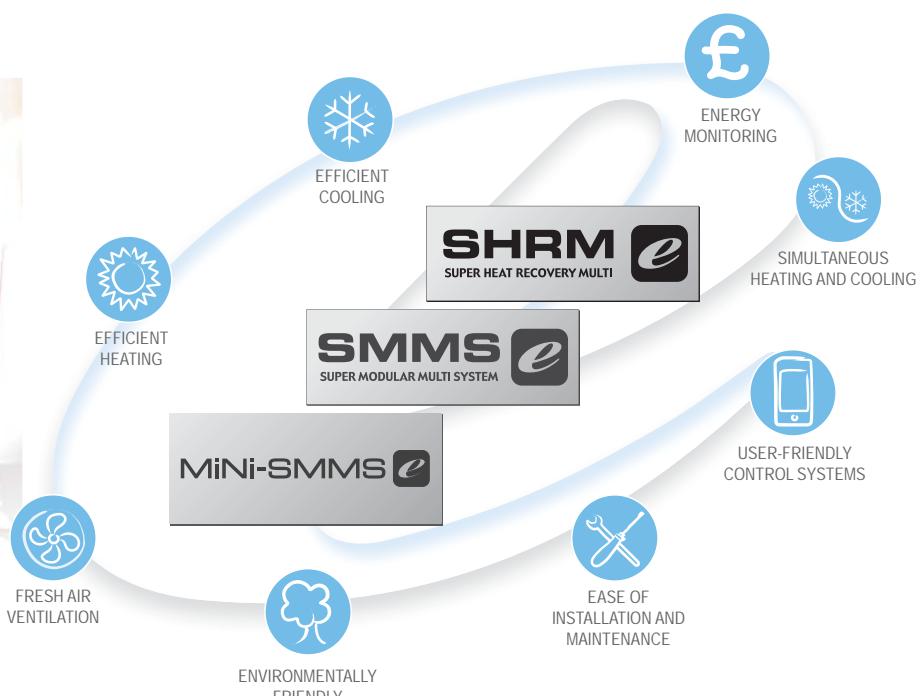

Easy access for all service and maintenance needs

So professional ...

Intensive training and instruction offered by local TOSHIBA-trained experts

So accessible ...

Simplified and swift commissioning assisted by the all new Wave Tool App

TOSHIBA

> HIGH EFFICIENCY AND LOW OPERATING COSTS

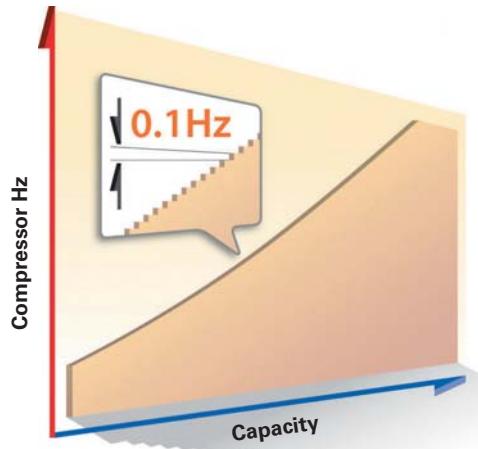

> Innovative compressor technology

Toshiba's infinitely-variable inverter-driven control can continually adjust the operating speed of the compressors in real time. This ensures that the capacity output precisely matches end-user demand. The advantages of this control are further optimised by incorporating Toshiba's twin-rotary compressors. These enable Toshiba's VRF units to achieve maximum performance and class-leading SEER values.

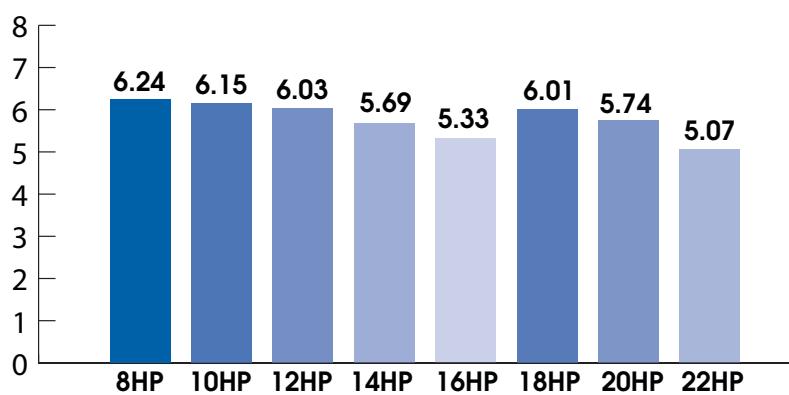

> Infinite variable control

This feature has been continually evolved and developed, since its inception by TOSHIBA engineers back in 2004 with the original SMMS system. The control has the ability to adjust the compressor rotational speed in a near-seamless 0,1 Hz steps. This control when matched with TOSHIBA's newest and latest twin-rotary compressors, allows the system to respond precisely to the capacity needs of the end-user, while minimising energy losses.

> Maximum part load and full load efficiencies

SMMSe SEER

Utilising the new highly-efficient core technologies has resulted in greater energy efficiency and performance

Thanks to Toshiba's unique twin-rotary compressor, re-designed heat exchanger and "intelligent flow" technology, the Toshiba VRF units achieve an SEER of 9.68 (MiNi SMMSe), one of the highest seasonal efficiency levels in the market.

Maximum efficiency is obtained under 50% part load conditions, under which VRF systems operate predominantly.

The expert use and evolution of Toshiba's core technologies have allowed the Toshiba VRF system to achieve the highest part load COP and EER in the industry.

> **MiNi SMMS-e, SMMS-e, SHRM-e**

> SUPERIOR AIR COMFORT

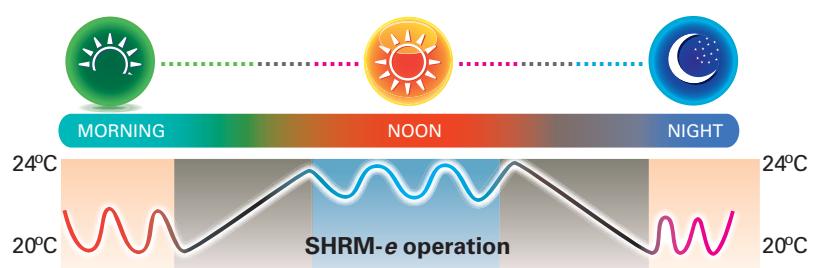

> Optimised heating operations

The Toshiba VRF allows continuous heating, even during external defrost operations, thanks to the new hot gas bypass control. Indoor units will now operate continually, with only a minimal reduction in capacity output. This results in an uninterrupted flow of warm air, ensuring maximum comfort to the end-user.

> Dual set point for more precision

The dual set point increases the system's energy efficiency and reduces overall running costs, with longer periods of time in thermal off mode. Heating and cooling temperatures at which the indoor unit will begin to operate can now be individually selected giving maximum flexibility to the user.

> Cool comfort with soft cooling mode

The development of the soft cooling mode provides a new level for cool comfort. You will have the freedom to personalise the air flow intensity, angle and direction directly from the remote control and enjoy the indoor environment at the right temperature without being directly exposed to the cold draught.

Standard operating mode

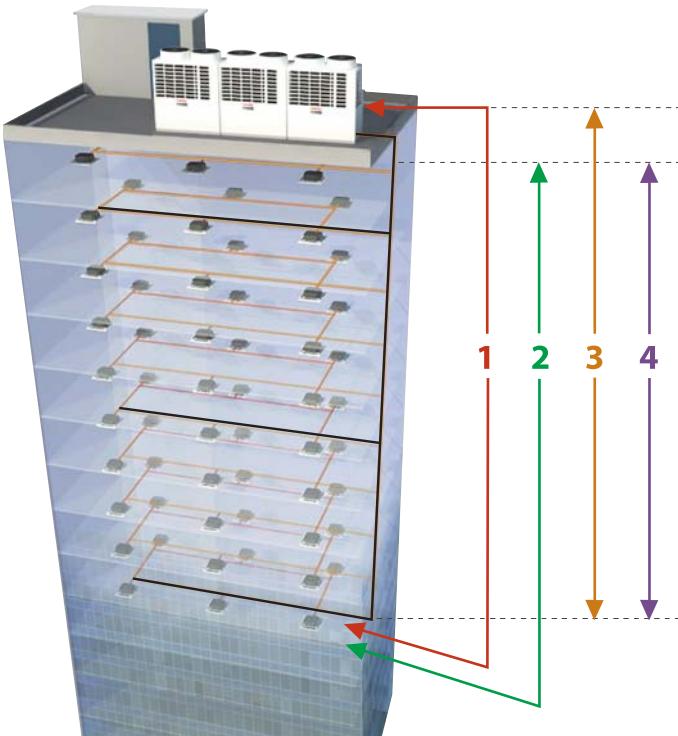

Soft cooling mode

TOSHIBA

> FLEXIBLE DESIGN AND QUICK INSTALLATION

> Piping design flexibility

Toshiba's piping technology makes them one of the industry's leaders in system flexibility and ease of installation and with the e-series VRF system, the level of flexibility has increased further, giving more options to the contractor and installer alike.

* Above 34 hp combination

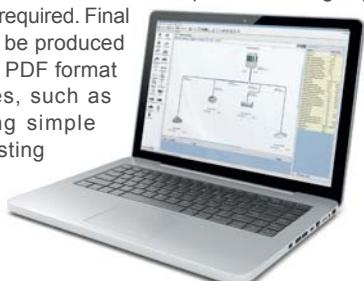

** It is 70 m for normal time, and has some specific conditions for 90 m, 50 m if piping length between indoor units is more than 3 m

*** It is allowed only if you use the multi-port FS unit

> Software Design Airs makes it easier

Toshiba Selection software has been fully-designed, with a user-friendly interface allowing novice- and expert-users alike to create simple, yet detailed VRF system schematics. It is highly versatile, allowing the level of detail to be tailored to suit customer requirements. The software also allows the user to specify pricing strategy and create additional interim reports, including any diagrams and schematics required. Final detailed reports can then be produced and sent to customers in PDF format or in more complex files, such as AutoCAD DXF, allowing simple integration into their existing software packages.

1 Total piping length

Applied with Toshiba's unique and greatly-improved technology, Toshiba's VRF can reach up to 1000 metres maximum piping length.

2 Farthest equivalent length

The maximum equivalent distance between the outdoor unit and the farthest indoor unit tops at 235 metres, a best-in-class for the industry.

3 Height between outdoor unit and indoor unit

Another industry best-in-class feature is the maximum vertical distance between the outdoor and indoor units, which can extend up to 90 metres. Toshiba's VRF enhanced piping capabilities result in more benefits for system design and installation flexibility, as well as lower installation costs.

4 Height difference FCU-FCU

Maximum vertical distance between indoor units, which reaches up to 40 metres, equal to an entire 11-storey building.

Height difference between outdoor unit and indoor unit
40/15 m ***

TOSHIBA

> Near Field Technology and Wave Tool, all your data within reach

With Near Field Communication (NFC), the SMMSe and the SHRMe are the first in the industry to allow remote monitoring of CDU operations. Using NFC technology, Read and Write data is exchanged wirelessly between the unit and a smartphone (Android, OS, 5.0) for remote commissioning and operations data checking.

Dimensions - MMY-MAP0806HT8P-E, MMY-MAP1006HT8P-E, MMY-MAP1206HT8P-E

(Note)

- If there is an obstacle at the upper side of the outdoor unit, set the top end of the outdoor unit 2000mm apart from the obstacle.
- Limit the height of the obstacle surrounding the outdoor unit to 800mm or less from the bottom end of the outdoor unit.
- Draw out the pipe procured locally to the front of the outdoor unit horizontally, and keep 500mm or more between the outdoor unit and traversing pipe if placing pipe transversely.
- Dimensional drawing of corrosion heavy protection model is the same as that of standard model.

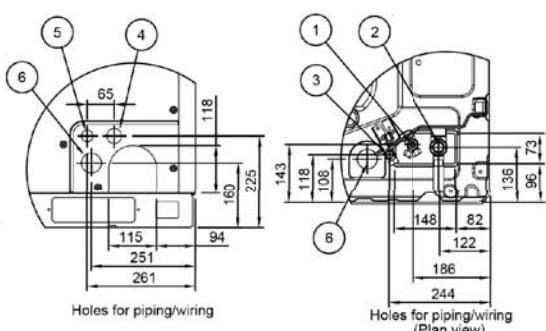

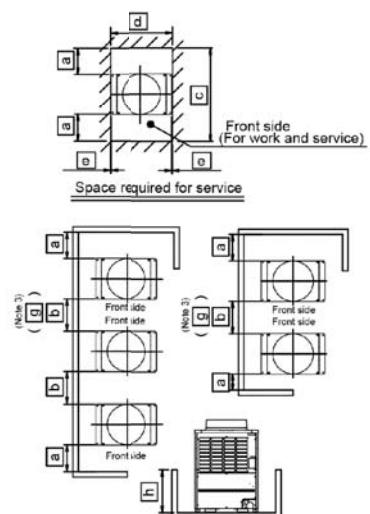

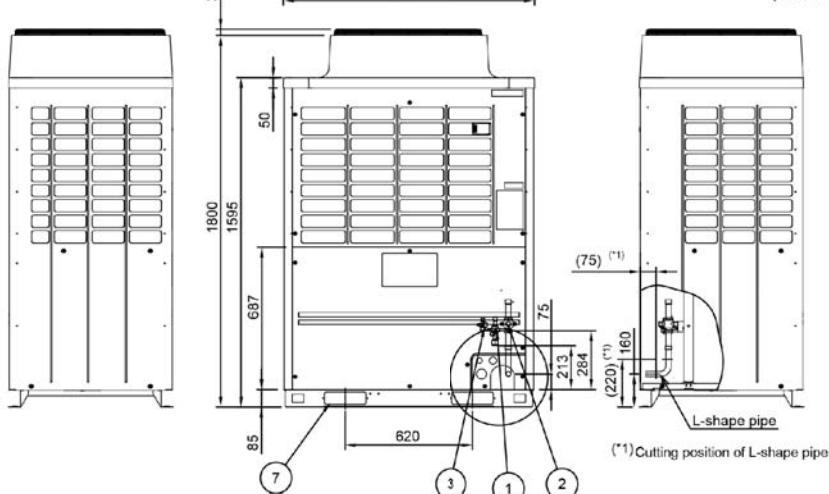

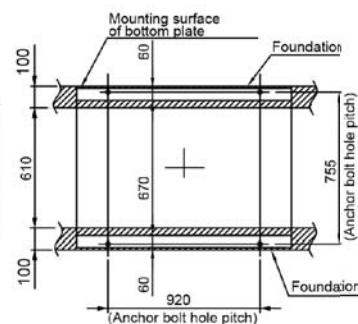

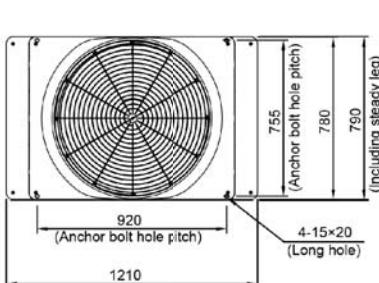

Dimensions - MMY-MAP1406HT8P-E, MMY-MAP1606HT8P-E

(Note)

- If there is an obstacle at the upper side of the outdoor unit, set the top end of the outdoor unit 2000mm apart from the obstacle.
- Limit the height of the obstacle surrounding the outdoor unit to 800mm or less from the bottom end of the outdoor unit.
- Draw cut the pipe procured locally to the front of the outdoor unit horizontally, and keep 500mm or more between the outdoor unit and traversing pipe if placing pipe transversely.
- Dimensional drawing of corrosion heavy protection model is the same as that of standard model.

R22 and R407C replacement technology for MiNi SMMSe, SMMSe and SHRM

Continuing our commitment to more environmentally-friendly refrigerants our latest generation MiNi SMMSe, SMMSe and SHRM VRF systems can be used to replace existing R22 and R407C air conditioning plant. R22 (HCFC) was commonly used in air conditioning production up to 2004, but on 1st January 2015 R22 equipment became non-serviceable, resulting in systems having to be replaced with more environmentally-friendly refrigerants that have a lower or zero Ozone Depleting Potential (ODP).

- Available for heat pump and heat recovery systems
- Re-use existing refrigerant pipework
- Cost-effective upgrade

- Reduced installation time and expense
- ECA compliant dependent on design
- Minimal disruption
- Ideal for refurbishment projects where the main risers are no longer accessible
- Lower energy consumption with up to 60% increase in energy efficiency
- Chance to increase or decrease system capacity
- Smaller footprint compared to previous R22 models
- Can re-use existing power supply
- End-of-life recycling program for replaced plant

Maximum system diversity factor connectable indoor units to outdoor is 105%.

The data tables detail the main pipe sizes to the first joint. The pipes can be vertical or horizontal providing they match the data. After the first joint for main pipes all other pipework must follow the same principles/criteria as for new installations as detailed in the installation and data books.

VRF Hot Water Module Indoor Unit

The VRF Hot Water Module enables the production of hot water from a standard VRF SMMSe and SHRMe system using waste heat that would normally be exhausted to the atmosphere. The Hot Water Module available in 2.5 hp and 5 hp configurations is capable of providing 8 kW and 16 kW of heating respectively to generate hot water up to 45°C. With the addition of an externally-fitted back-up heater the hot water temperature can be increased to 50°C. Hot Water Modules can be combined in multiples of two for systems above 8 hp.

VRF High Temperature Hot Water Module Indoor Unit

The VRF High Temperature Hot Water Module enables the production of hot water from a standard VRF SHRMe system using waste heat that would normally be exhausted to the atmosphere. The High Temperature Hot Water Module available in 4.5 hp configuration is capable of providing 14 kW of heating to generate hot water up to 85°C. High Temperature Hot Water Modules can be combined in multiples of two for systems above 8 hp.

Accessories

RBC-AMS41E	Remote Controller Built-In Timer	Full control including service functions with fully-programmable 7-day timer	£73
RBC-AMS55E-ES	Remote Controller	Includes timer and backlight display as well as power-save functions, multilingual	£112
RBC-AS41E	Simplified Controller	Ideal for hotel and basic use applications (no service function available)	£79
RBC-ASC11E	Compact Remote Controller	Simplified backlight display controller with timer off, multilingual	£66
RBC-SMF1	Fan Interface	Interface to provide an output to enable an external fan from the unit	£54
RBC-SMT1	CN02 Connector Timer Interface Lead	Lead to provide ON/OFF control from the RBC-AMT32E remote or any central controller	£10
RBC-SMIM2	Indicator Module Mode	Interface to indicate the mode of unit operation output for Cool, Heat and Fan Only	£81
RBC-SMIM3	Indicator Module ON/OFF And Stopping Fault	Interface to indicate unit operation and stopping fault	£77
RBC-SMIM4	Indicator Module ON/OFF, Stopping Fault And Unit Enable	Interface to indicate unit operation and stopping fault and connections to enable the unit	£86
RBC-FMC2	Flush Mount Collar Kit (for Fre-sh-air model)	Enables air curtain to be mounted in void space	£140

Note: Air Curtain model Fre-sh-air Universal DX VRF - SM2000DH-FS unit can be mounted in ceiling void using accessory RBC-FMC2

> ESTIA SPLIT

OUTDOOR UNITS

Toshiba has long-term experience of successes in air-to-air heat pump production. The same reliable and award-winning technology is at the core of the new air-to-water heat pumps, above all the advanced inverter technology and the DC twin-rotary compressor. ESTIA heat pumps operate with the reliable and safe R410A refrigerant.

HOT WATER TANK

The ESTIA tank is a compact stainless steel insulated tank producing domestic hot water for sanitary use.

The performance of the overall system is also maximised thanks to the integrated coaxial heat exchanger.

The internal electric heater is controlled to optimise the use of the system in the case of extreme outdoor air temperatures. This solution reduces running costs and guarantees a constant hot water temperature inside the tank.

HYDRO UNITS

The high-efficiency plate heat exchanger produces hot water at low or medium temperature (35-60°C) or cold water (7-20°C). A back-up heater (3.6 or 9 kW options) further supports the operation for extreme conditions. The hydro unit integrates the advanced control of water temperature to allow an optimised distribution to emitters and to the domestic hot water tank.

CONTROLLER 2 zones with weekly timer

The large screen remote controller is designed to be simple, intuitive and easy to use.

The remote controller allows independent heating to a maximum of 2 zones and domestic hot water.

It regulates the water temperature and optimises the system's energy consumption. The anti-bacteria control and the hot water boost functions can easily be activated.

The remote controller can also be used to set weekly timers for the system and, when used as a second remote controller, can be used to control room air temperature.

TOSHIBA

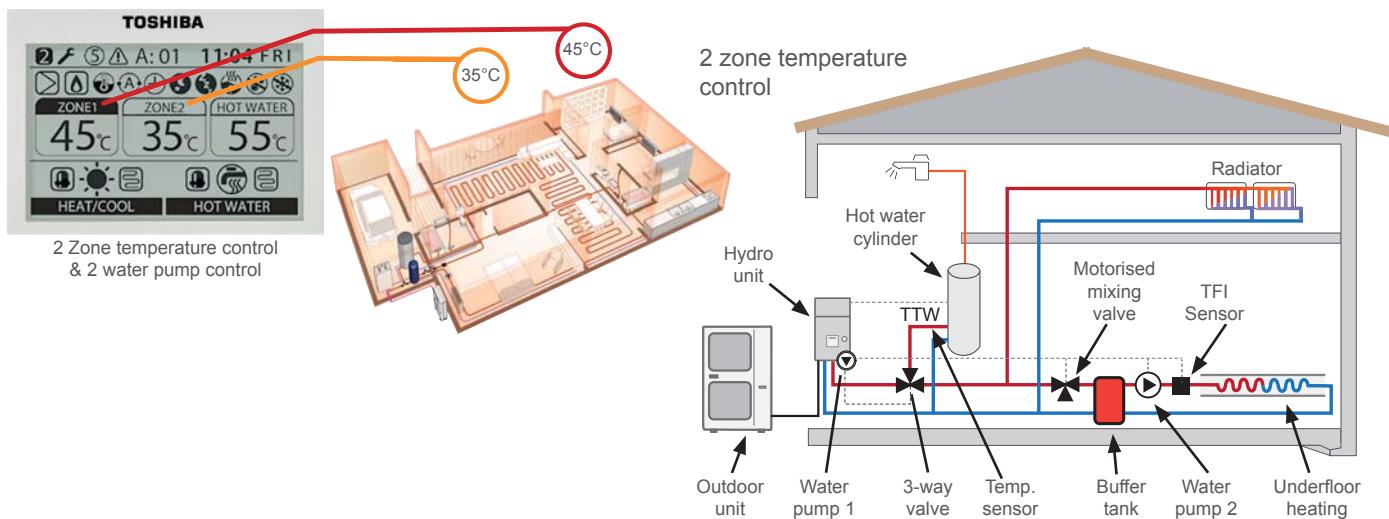

ESTIA SPLIT CONTROLS

Toshiba offers different control solutions to meet end-users' and designers' expectations. From local individual control and settings to computer-based TCC-Link network, all indoor units can be programmed and set to suit the operational needs. Remote control systems offer a wide range of features including schedule timers, diagnostic functions, input/output signals, to name a few.

Toshiba offers a number of local control products that can be used to control a single indoor unit, or group of up to 8 indoor units, from a position adjacent to that indoor unit or group. It is possible to install these local controllers up to 500 m from the connected indoor unit which allows greater flexibility when designing the installation site.

2 zone and 2 water pump control

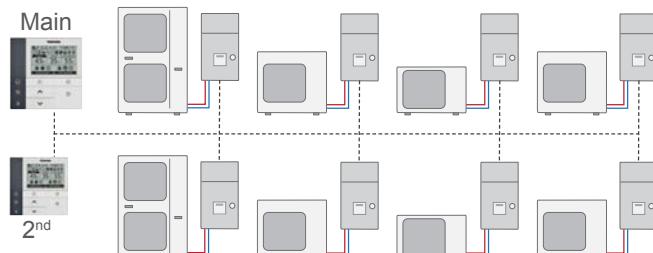

Space heating/cooling (multiple zones) with domestic hot water.

Control integration

ESTIA master/slave group control function allows up to 2 remote controllers to operate simultaneously up to 8 systems.
ESTIA open protocol interfaces Modbus and KNX are available in Home Energy Management Systems.

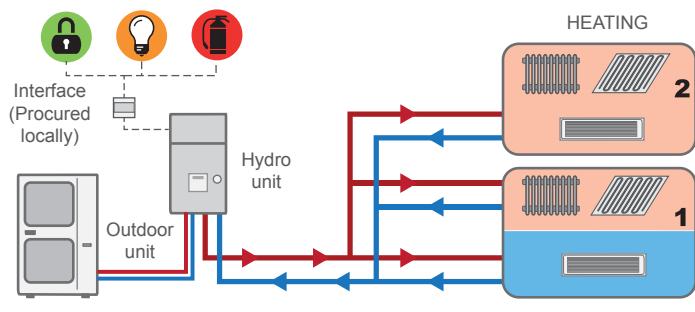

Group control function

One remote controller can simultaneously operate up to 8 systems

Note: Maximum connections configuration: 8 outdoors and 2 remote controllers

Open protocol interfaces

Modbus and KNX interfaces are available to use in Home Energy Management Systems

¹ Heating performance measurement conditions: outside air temperature 7°C, water supply temperature 30°C, outlet temperature 35°C, refrigerant piping length 7.5 m (no height difference).

² Nominal heating capacity are given at water delta T = 5°C and rated compressor operating frequency in accordance with EN14511.

³ Max heating capacities are shown at peak value during operation, at max compressor operating range in accordance with EN14511.

⁴ Energy Efficiencies Class & Seasonal space heating energy efficiency (η_s) are provided for Average Climate conditions in accordance with EN14825.

⁵ Heating capacity at -7°C are shown at maximum compressor operating frequency in accordance with EN14511.

⁶ The outdoor unit operating noise is measured at the point of 1 m away from the unit back surface centre and 1 m high from the ground. The hydro unit operating noise is measured at the point of 1 m away from the unit front surface centre. The value of the operating noise varies depending on room structure where the unit is installed.

Controls

Toshiba offers different control solutions to meet end users' and designers' expectations. From local individual control and settings to computer-based TCC-Link network, all indoor units can be programmed and set to suit the operational needs. Remote control systems offer a wide range of features including schedule timers, diagnostic functions, power meter, input/output signals, to name a few.

Toshiba offers a number of local control products that can be used to control a single indoor unit, or group of up to 8 indoor units, from a position adjacent to that indoor unit or group.

It is possible to install these local controllers up to 500 m from the connected indoor unit which allows greater flexibility when designing the installation. This also provides the opportunity to install the local controller in an area removed from the connected indoor unit, for example, common use areas where the indoor unit operation should not be changed by local users but may need to be monitored by a site engineer from a Control Room.

There are two different types of Local Remote Controller currently available from Toshiba, these are:

- The Wired Remote Controller which is the standard local control device suitable for most applications, and
- The Wireless Remote Controller which consists of a universal handset that can be purchased with a choice of 4 different wireless receiver units that are specifically designed to suit different indoor unit model types.

CONTROLS

Local Network and Black Pear

The Local Network

There are three different methods that can be used to connect the Local Control Device to the indoor unit, or group of indoor units.

1-to-1 connection

This method is for the connection of a single Wired Remote Controller, or Wireless Receiver Unit, to a single indoor unit.

Group connection

This method enables the connection of up to 8 indoor units to a single Wired Remote Controller, or Wireless Receiver Unit. In this configuration, up to 8 indoor units can be controlled simultaneously (all indoor units follow the same setting parameters) from a single Local Control Device.

Multiple controller connection

This method enables the connection of up to 2 Local Control Devices (Wireless Receiver Unit or Wired Controller) to a single indoor unit, or a group of up to 8 indoor units. In this configuration, Main/Sub settings must be configured for each of the connected Local Control Devices.

Black Pear

The Black Pear Toshiba HVAC controller is the most versatile on the market, connecting directly to the 2-wire TCC-Link network and will control RAV 64 groups of up to 8 indoor units per group and VRF up to 64 indoor units.

The integrated LCD display provides an engineer's interface for local control, removing the need for a central controller and separate interface. The result saves time and space, and commissioning is made simple with free USB-based configuration software. The units will operate on systems with or without a central controller and supports Modbus, BACnet or Trend protocols. The device is easily configured to communicate with units in the same way that a standard central controller communicates with connected units. When the controller is powered it scans the entire network for all connected indoor units. The keypad controller can be used to operate all indoor units. This feature is very useful in the event of a BMS failure in providing and enabling continuous communication. The controller can be configured by a PC interface to group units and name zones.

There are 3 models providing different protocol solutions:

- RBC-BPB1 BACnet/IP
- RBC-BPM1 Modbus RTU via RS232/RS485 and Modbus TCP
- RBC-BPT1 Trend via Ethernet (requires an IQ3/4 outstation with spare memory)

Wired Simplified

Wired Standard

Wired Controller

TOSHIBA

CONTROLS

Touch Screen Controller and BACnet

Touch Screen Controller

RBC-TBPTS

Our latest generation Toshiba Touch Screen Controller provides a modern compact approach to management control technology utilising easy-to-use icons and simple intuitive navigation to deliver sophisticated strategies that provide precise control and data analysis.

The Toshiba Touch Screen Controller is simple to install and configure and offers three levels of operation: general user, building manager and engineering - all password-protectable. The Toshiba Touch Screen Controller features a built-in web browser interface, air conditioning status, unit enable and disable, time and alarm management control and fault indication.

TCS Net Relay Interface BMS-IFLSV4E

The Relay Interface connects to the Touch Screen Controller via the RS485 Network using connections A & B. The air conditioning network connects to terminals U1 & U2 (U3 & U4 at the outdoor unit) and a maximum of 64 indoor units may be served. The relay interface requires a 240 V 3 A mains power supply.

Energy-Monitoring Relay Interface BMS-IFWH5E

The Energy-Monitoring Relay Interface connects to the RS485 Network and provides a means of interface to the pulse power meters. Up to eight power meters can be connected to each Relay Interface.

Digital Input/Output Relay Interface BMS-IFDD03E

The D/I module connects to the RS485 Network and provides 8 inputs and 4 outputs, which could be used to interface a fire alarm system or a room occupancy sensor. The D/I module output could be used as a means of remote fault indication to another system.

BACnet

BMSIFBN640TLE

The BACnet solution allows Toshiba indoor units to be connected to a BACnet over IP-based BMS. The gateway uses all standard BACnet objects for the control and monitoring of each indoor unit. The BACnet solution is intended for use on systems where control of the air conditioning is being carried out by another system that is part of the wider BMS for a large building. BACnet is a standard protocol adopted by many BMS companies as a standard network protocol they support.

CONTROLS

Windows Package and Smart Manager Controller

Windows Package

RBC-WP1-PE

The RBC-WP1-PE is a front-end software package that controls all aspects of the air conditioning systems installed on a site. The software is installed on a PC, which then connects to a TCB-IFLN642TLE LonWorks gateway for connection to the indoor units. The software allows all of the unit's operating parameters to be adjusted from the one PC. It allows faults to be reported and re-transmitted via email, fax or text message. The software can be accessed remotely either by telephone or via the Internet. The software can log data and provide graphical representation of data. It has a schedule built-in for time control and it can also be used to reset set points or modes of operation.

Energy-monitoring software

RBC-EM1-PE

The energy-monitoring software can be included to calculate the running costs of individual indoor units. This data can then be provided in structured bills for the building tenants. This data is calculated from the demand given from the indoor units and the power consumed by the system. The RBC-EM1-PE power meter is required for this function (one for each system).

Smart Manager Controller

Smart Manager Data Analyser

BMS-SM1281ETLE

The Smart Manager is a product that is capable of controlling 128 indoor units from a single location. The device has the facility to set all of the operating parameters for individual or zoned indoor units, whether they are VRF or individual split systems. It is also capable of displaying individual fault codes for any units on the network.

The Smart Manager can be remotely connected via a PC and all functions can be controlled via Internet Explorer. This controller can also be linked to energy-monitoring relay interfaces for the collection of data for energy billing. The controller can also be linked to the digital input/output module for the interface to other systems.

The Smart Manager has some advanced functions for different users which can be configured to give restricted access. The controller has an advanced time clock function to give the building owner flexibility. The controller has a return back function, which returns the unit settings to a predetermined setting after a period of time. All of these functions are accessed via the web interface.

Control of other devices

RBC-DI1-PE

The Digital Input/Output module that is used to control other plant systems. For example, we can enable boilers or other air handling units. The module can accept inputs also; examples would be an input from a fire alarm where the air conditioners are shut down or an input to switch on the air conditioners from an external source.

Energy-Monitoring Relay Interface

BMS-IFWH5E

The energy-monitoring Relay Interface connects to the RS485 Network and provides a means of interface to the pulse power meters. Up to eight power meters can be connected to each Relay Interface.

Digital Input/Output Relay Interface

BMS-IFDD03E

The D/I module connects to the RS485 Network and provides 8 inputs and 4 outputs, which can be used to interface a fire alarm system or a room occupancy sensor. The D/I module output can be used as a means of remote fault indication to another system.

CONTROLS

BMS Interfaces

LonWorks Gateway

TCB-IFLN642TLE

The LonWorks Gateway is a device that allows the Toshiba indoor units to be connected to a LonWorks-based BMS. The gateway uses all standard network variables contained in individual function blocks for each indoor unit. The gateway can communicate with up to 64 indoor units on a U1/U2 Network. The device is used to connect to a LonWorks Network, with which many BMS companies are able to communicate (open network protocol).

All of the data for each indoor unit is available on the LonWorks Network; there are twenty-nine standard network variables for each indoor unit, all of which are available on the gateway.

The gateway connects to the air conditioner network via the U1 & U2 connections, with a maximum of 64 indoor units served. The gateway requires a 240 V 3 A mains supply.

Modbus Gateway

TCBIFMB641TLE

The Modbus interface connects Toshiba air conditioning systems to a Modbus Building Management System. The interface connects directly to the Toshiba TCC-Link Central Control Network and can be wired to indoor or outdoor units depending on preference. The interface uses Modbus RTU protocol based on RS-485 type serial communications protocol to connect to a suitable Modbus Master device. This allows control of all connected Toshiba air conditioning equipment from that BMS control system.

One Toshiba Modbus interface can be connected to a single TCC-Link Network and addressed using simple switches provided on the device. This is to enable ease of installation, especially in buildings with separate areas where one Interface may be used for each area/floor. A maximum of 64 indoor units/groups and 16 outdoor systems can be connected to a single Modbus interface.

BMS Analogue/Modbus Individual or Group Interface

RBC-TSI1

The RBC-TSI1 is a versatile interface for Toshiba air conditioning units, offering a wide range of external control facilities.

The unit attaches to the TCC-NET A/B network. It is network powered and may be used with or without a remote controller being present.

Up to eight indoor units may be monitored and controlled as a group by a single RBC-TSI1.

Hardware Interface:

Six analogue control inputs selectable as resistance or 0-10 V DC. Two relay outputs for 'Run' and 'Error' rated 24 V 0.1 A.

Serial Interface:

RS485 serial Modbus connection with slave addresses from 1 to 254 and configurable baud rates and parity. Modbus may be used for monitoring and control or to allow the operation of up to sixteen units in a 'Master/Slave' configuration.

Operating Modes:

Several modes of operation are available including special modes for energy saving and hotel applications. Modes are selected by a link and bit switches.

Available modes:

1. Standard operation with the facility to interconnect up to 16 units as a 'Master/Slave' group
2. As (1) for VN units
3. Preset mode operation
4. Local/Restore mode
5. Duty/Standby operation
6. Eco-1 (Timed Fan)
7. Eco-2 (Fan Band)
8. Hotel mode
9. AHU mode

Notes for comparison table opposite:

- [Note 1] Not provided on the concealed duct high static pressure type 8-10 hp.
- [Note 2] No function for concealed duct standard type, high static pressure type, floor-standing cabinet type, floor-standing concealed type, and slim duct type.
- [Note 3] The Automatic operation is not available for SMMS series units other than Super Heat Recovery Multi types. The receiving unit lamp blinks, and the alarm sound is emitted. Change to another operation mode. The alarm sound is also emitted on the Cooling only models, and the Automatic operation is not available.
- [Note 4]
 - DN code 32 setting is necessary for remote controller sensor.
 - Be careful that the surrounding air flow of the remote temperature sensor is not poor.
 - When using 2 remote controllers, the Header controller is recognised as remote sensor though the temperature can be set from either Header or Follower remote controller.
 - Do not use remote sensor in case of group control except DI/SDI.
- [Note 5] Select the remote sensor switch on the controller.
- [Note 6] Wireless type max. 6 address setting. The address switch position on both receiver and controller shall be selected.
- [Note 7] The actual functions depend on the air conditioner.
- [Note 8] Another 200 m for indoor to indoor wiring.
- [Note 9] For settings, refer to the installation manual of RBC-AMS55E-ES.

TOSHIBA

CONTROLS

> DO YOU WANT A SMART SOLUTION TO GIVE YOUR FAMILY GREATER COMFORT WHILE EASILY MANAGING YOUR ENERGY SAVINGS?

● MULTIPLE UNITS, ONE APP

- 1 user can control up to 10 AC units
- 1 AC unit can be controlled by up to 5 users

● EASY GROUPING

- Make control simple by grouping your AC units in up to 3 zones

● SECURE CONNECTIONS

- Password and login
- Child-lock function

● COMPATIBLE PRODUCTS

- DAISEIKAI 9, SHORAI, Console, SEIYA

● DOWNLOAD YOUR APP

- Toshiba AC Control App for your Android and iOS smartphone from Google Play or the App Store

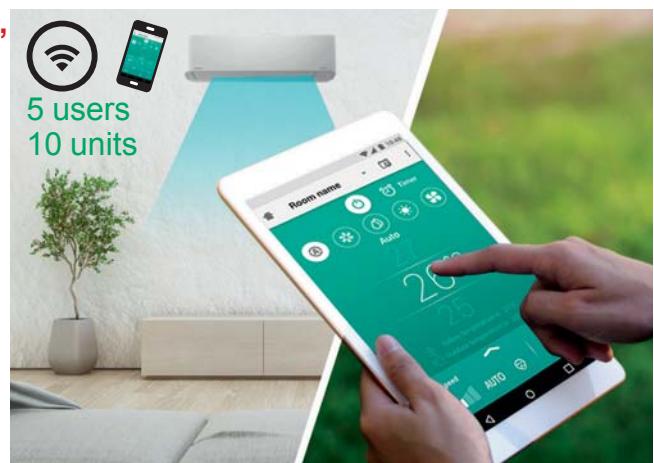

Take complete control of your comfort with the Toshiba Home AC Control App. Simple to use on your smartphone or tablet, both at home and on the move. Fully-compatible, the adapter can be used with all Toshiba High-Wall and Console units.

Enhance your comfort, at home or away

Customise your comfort, by finding the perfect cooling or heating level for your family at any time, no matter where you are. When at home, simply replace your infrared remote control with the intuitive smart app. This also gives you easy access to your air conditioner on the move, allowing you to adapt your comfort to your lifestyle!

Smart and efficient

- Want to go home and immediately enjoy an ideal temperature? Simply use the app to check the status, and quickly and easily adjust your comfort, no matter where you are.
- Match your AC schedule to your family's routine to optimise running time, and enjoy savings on your energy bill.

Modern app

• This user-friendly app is available in 5 languages, and boasts a host of intuitive features. It has a different colour for each different mode, and the main functions are accessible in just one touch.

• Toshiba premium features enable you to enjoy all the benefits of your AC systems at home. Simply swipe up on the main app screen on your smartphone or tablet to access additional Toshiba-specific features.

TOSHIBA

CONTROLS

> DO YOU WANT FULL CONTROL OF YOUR AC SYSTEM IN ONE TOUCH, WHEREVER YOU ARE?

Designed for commercial applications, the Toshiba AC Control App is your one-stop solution for managing up to 32 indoor units via an Android or iOS smartphone, with all main functions accessible in a single touch.

x32 users
x1 administrator

BMS-IWF0320E

Solutions wherever you are

Toshiba technology you can trust. Fully-committed to providing creative building management solutions, designed to enhance your sustainable lifestyle.

Make it your own

With different access levels for different users, this app can be used by everyone from facilities managers to standard users to manage all of the unit's functions. For an enhanced level of security, a user name and password is needed to log in.

Everything you need in one app

All of the indoor unit's functions can be accessed in an instant, allowing you to enjoy the full advantages of the AC system at work. The entire system is simple to manage, even remotely.

• QUICK AND EASY

- Simplified installation with direct connection to the TCC-Link bus line

• DESIGNED FOR YOU

- Up to 32 users for control of a maximum of 32 assigned indoor units
- Administrator mode for control of the entire system via a single app

• EVERYTHING UNDER CONTROL

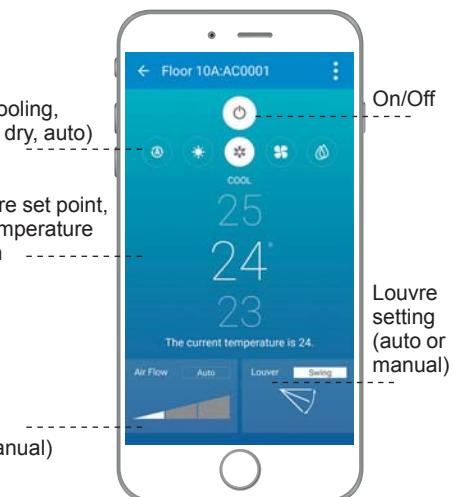

- Optimise the management of your facilities without compromising comfort

• COMPATIBLE PRODUCTS

- MiNi SMMS-e, SMMS-e, SHRM-e and RAV systems

• DOWNLOAD YOUR APP

- Toshiba AC Control App for your Android and iOS smartphone from Google Play or the App Store

Administrator-specific functions:

- Group control with on/off function for all devices
- User access restriction management and advanced mode

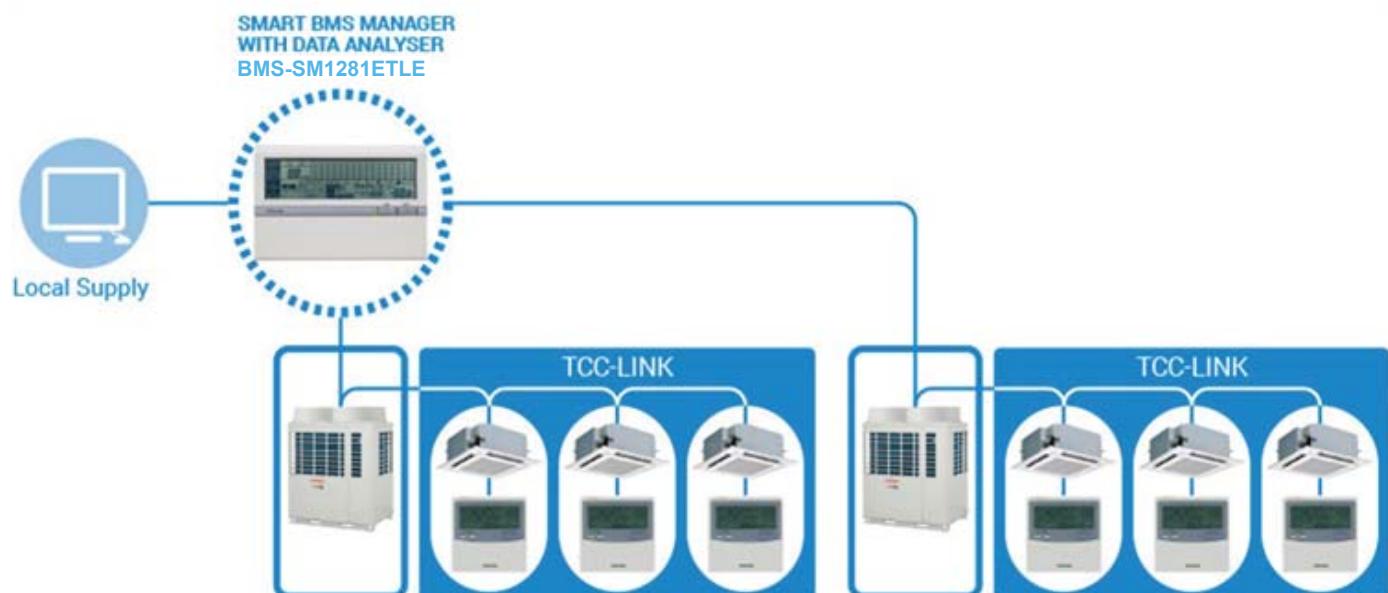

CONTROLS

Network Controls

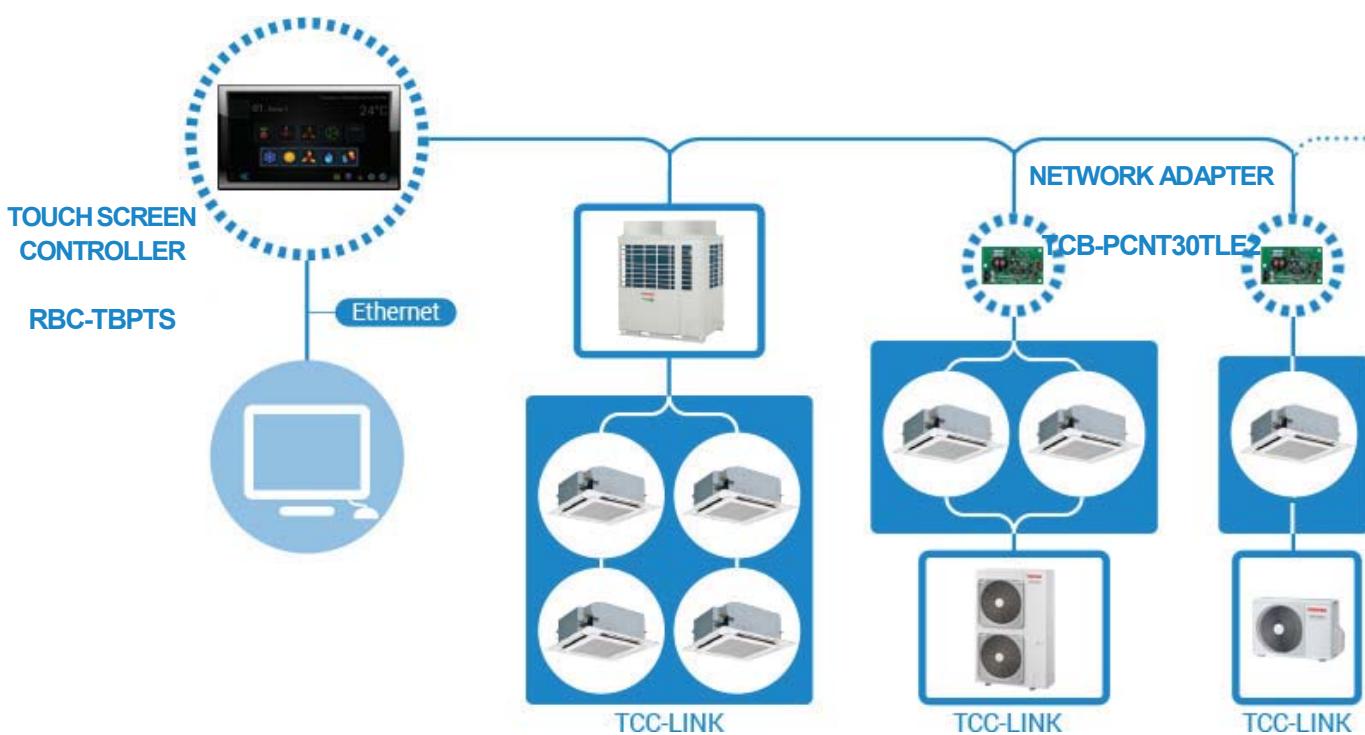

Toshiba offers a wide range of centralised network control solutions for a diverse range of building environmental management needs, such as remote network control, energy monitoring, report generation, advanced scheduling and others. What's more, comprehensive interface solutions provide easy installation and integration with leading building management systems.

	RBC-AVS4		Remote Sensor	Averaging temperature sensor kit	£195
	RBC-CK1	RAV	VRF-DI-SDI Conversion Kit	Kit required to convert VRF Floor/Chassis units to connect with DI-SDI outdoors	£123
	RBC-CK2		VRF-DI-SDI Conversion Kit	Kit required to convert VRF Floor-Mounted Cabinet units to connect with DI-SDI outdoors	£99
	RBC-FDP3-PE	VRF - RAV	BMS Interface	Monitoring and control interface for VRF and DI-SDI	£354
	RBC-FDP3-AHU		BMS Interface	Interface to connect to a 0-10 V with AHU firmware	£502
	RBC-IS-IR-Wi-Fi-1	RAS	Wi-Fi Connection	IntesisHome Wi-Fi universal controller	£239
	RBC-RASNC	RAS - RAV	RAS Network Card (to Central Controller)	Interface to enable RAS-to-RAV communication	£251
	RBC-SMF1	VRF - RAV	Fan Interface	Interface to provide an output to enable an external fan from the unit	£54
	RBC-SMIM2		Indicator Module Mode	Interface to indicate the mode of unit operation output for cool, heat and fan only	£81
	RBC-SMIM3		Indicator Module ON/OFF and Stopping Fault	Interface to indicate unit operation and stopping fault	£77
	RBC-SMIM4		Indicator Module ON/OFF, Stopping Fault And Unit Enable	Interface to indicate unit operation and stopping fault and connections to enable the unit	£86
	RBC-TO-RC-Wi-Fi-1		Wi-Fi Connection	IntesisHome Wi-Fi - Toshiba DI and VRF	£268
	RBC-TSI1		Monitoring and Control Interface	Interface to connect 0-10 V or resistance-based BMS	£280
	RBC-TXIO		Control Interface	Input/output interface for third-party equipment	£342
	RB-N103S-G	RAS	Wi-Fi Connection	Wi-Fi adapter	£117
	RB-N104S-G		Wi-Fi Connection	Wi-Fi adapter and cable	£122
	RB-N105S-G		Wi-Fi Connection	Wi-Fi adapter	£117
	RB-N106S-G		Wi-Fi Connection	Wi-Fi adapter and cable	£122
	RB-I301-E		RAS Console	Leak detection sensor kit for RAS Console units	£117
	TCB-LDS1	VRF - RAV	Refrigerant Leak Detector	Room leak detection concentration sensor with white faceplate (requires remote 12 V transformer)	£412
	TCB-LDS2		Refrigerant Leak Detector	Room leak detection concentration sensor with stainless steel faceplate (requires remote 12 V transformer)	£427
	TCB-LDS1BLK		Refrigerant Leak Detector	Room leak detection concentration sensor with black faceplate (requires remote 12 V transformer)	£371
	TCB-LD12V		Refrigerant Leak Detector	Room leak detection transformer 12 V and cable kit (use with TCB-LDS1, TCB-LDS2 and TCB-LDS1BLK)	£171
	TCB-IFCB5-PE		Window Switch and Remote ON/OFF	Disable indoor unit operation when outside window is open and for door entry system	£26
	TCB-PX100-PE		Enclosure for Window Switch	Use when the window switch cannot fit within the AC unit	£19

Indoor Interface

ACCESSORIES

Accessories - Controls: Indoor Interfaces, Indoor Interface Leads and Interfaces

Indoor Interface		TCB-IFGSM1E	RAV	CN61 GSM Control Interface	RAV DI-SDI allows on/off control, operation status monitoring and alarm monitoring of AC	£549
		TCB-PCNT20E	VRF - RAV	Network Adapter XY AI Network	Network adapter to connect a DI unit to the old AI network	£186
		TCB-PCNT30TLE2 TCB-PX30MUE	RAV	Network Adapter U3/U4 TCC-Link Terminal Box (TCB-PCNT30TLE2) Enclosure for the PCNT30TLE2 when used with all DI Cassette units	Network adapter to connect a DI unit to the TCC-Link network Enclosure for the PCNT30TLE2 when used with all DI Cassette units	£86 £65
Indoor Interface Lead		RBC-CBK15FE RBC-FSEX15	VRF	Flow Selector Lead 15 m Flow Selector Lead 15 m	Extension lead kit for the flow selector Extension lead kit for the flow selector	£151 £111
		RBC-LDCIMC		Refrigerant Leak Detector Lead	Leak detection 15 m lead	£46
		RBC-IT4-PE		CN06 Connector Timer Interface	Interface to accept a 240 V input from a timer	£131
		RBC-SMCN61	VRF - RAV	ON/OFF and Locking Lead	Lead to switch a unit on/off remotely and to lock this function	£9
		RBC-SMCN61L		ON/OFF Lock Lead	Lead to lock the on/off function	£10
		RBC-SMT1		CN02 Connector Timer Interface Lead	Lead to provide on/off control from the RBC-AMT32E remote or any central controller	£10
		RBC-VNL1	VN	CN705 Unit Interface Lead 1.5 m	VN-M150-2000HE external 0 V contact closure for on/off, local controller lock, increase fan speed and damper position	£54
		TCB-KBCN32VEE		Connector for CN32	Ventilation fan control DI and VRF	£151
		TCB-KBCN60OPE		CN60 Operation Status	Operation status for indoor unit DI and VRF	£296
		TCB-KBCN61HAE	VRF - RAV	Connector for CN61	On/off control DI and VRF	£300
		TCB-KBCN70OAE		Connector for CN70	Option error input DI and VRF	£147
Interface		TCB-KBCN73DEE		Connector for CN73	Demand input control DI and VRF	£149
		TCB-KBCN80EXE		Connector for CN80	External error input DI and VRF	£153
		TCB-KBOS2E	RAV	Optional Connector Kit	RAV-**80#_280# peak-cut control/night operation/compressor status output	£24
		TCB-KBOS4E		Optional Connector Kit	RAV-**80#_160# peak-cut control/night operation/compressor status output	£31
		BMS-IFDD03E	VRF - RAV	Digital Input/Output Relay Interface	Interface for touch screen controller; compliant manager, web-based controller, smart manager, power meter device, 4 x digital outputs and 8 x digital inputs	£517
		BMS-IFWH5E		Power Meter Interface	Energy monitoring relay interface for up to 8 pulse power meters, touch screen controller, compliant manager, web-based controller, smart manager	£488
		RBC-DI1-PE		Digital Input/Output Interface	Interface to allow the connection of external equipment to the Windows package	£345
		RBC-IT2-PE		Timer Interface	Interface to accept a 240 V input from a timer for R407C equipment	£123
		RBC-IT3-PE	RAS	Timer Interface	240 V timer interface for Daiseikai units	£140
		TCB-IFCB640TLE	VRF - RAV	Analog Interface	Control and monitoring up to 64 indoor units on TCC-Link	£1,598
		TCB-IFCG1TLE		General Purpose Interface	Enables control of AC by the DI/DO and AI/AO	£1,598
		TCB-IFLN642TLE		LonWorks Gateway	LonWorks interface	£1,222

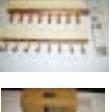

ACCESSORIES

Accessories - Controls: Interfaces, Outdoor Interfaces

		TCB-IFMB641TLE	VRF - RAV	Modbus Gateway	Connect the system to a Modbus building management system	£1,488
Interface		TCB-PCIN3E	ESTIA	Output PCB	Interface to provide an output for fault and run	£92
		TCB-PCMO3E		External Input PCB	Estia Interface to switch the unit ON or OFF	£65
		TCB-PCUC2E	VRF - RAV	Indoor Control Interface	Application control kit	£115
		TCB-IFCB-4E2	VRF - RAV	CN61 Remote ON/OFF	Interface for remote ON/OFF	£254
		TCB-PCDM4E		CN513 Power Peak Control	Header outdoor unit operation limit demand controller	£90
Outdoor Interface		TCB-PCDM4E	VRF	Power Peak -Cut Control	Power peak-cut control	£90
		TCB-PCIN4E		CN511 Operation Output Display	Operation/error output display, compressor operation control	£99
		TCB-PCMO4E		CN150-508-512 Operation Control	CN150 operation mode control; CN508 night set back control; CN508 snowfall fan control; CN512 external master ON/OFF	£69
		TCB-PCOS1E2	RAV	CN510 Outdoor Control DI	Peak power cut and noise reduction. Output for compressor operation	£166

ACCESSORIES

Accessories - Piping Kits: Condensate Pumps, Branch Joints and Headers

Condensate		TCB-KP14CPE		4-Way Branch Kit	Ceiling-Suspended unit elbow piping kit (1.5-2 hp)	£68
		TCB-KP24CPE	VRF - RAV	2-Way Branch Kit	Ceiling-Suspended unit elbow piping kit (3-6 hp)	£81
		TCB-DP31CE		Drain Pump	Ceiling-Suspended unit drain pump kit (1.7-6 hp)	£240
		TCB-DP31HEXE	VN	Drain Pump	Air-to-air heat exchanger drain pump kit (for DX coil)	£566
		TCB-DP32DFE	VRF- RAV	Drain Pump	Fresh Air Intake drain pump kit (5-10 hp)	£645
		TCB-DP40DPE		Drain Pump	High-Static Ducted unit drain pump kit (8-10 hp)	£355
Branch Joints		RBC-DTWP101E		DI 4-Way Branch Kit	Quad system RAV-**224#-**280#	£232
		RBC-TRP100E		DI-SDI 3-Way Branch Kit	Triple system RAV-**160#-**280#	£218
		RBC-TWP101E	RAV	DI-SDI 2-Way Branch Kit	Twin system RAV-**224#-**280#	£170
		RBC-TWP30E2		DI-SDI 2-Way Branch Kit	Twin system RAV-**80#-**110#	£71
		RBC-TWP50E2		DI-SDI 2-Way Branch Kit	Twin system RAV-**140#-**160#	£75
		RBM-BT14E		VRF CDU 2-Pipe Modular Kit	SMMS capacities below 26 hp	£126
		RBM-BT24E		VRF CDU 2-Pipe Modular Kit	SMMS capacities above 26 hp	£155
		RBM-BT14FE	VRF	VRF CDU 3-Pipe Modular Kit	SHRM capacities below 26 hp	£127
		RBM-BT24FE		VRF CDU 3-Pipe Modular Kit	SHRM capacities above 26 hp	£156
Headers		RBM-HY1043E		VRF 2-Pipe 4-Way Header	SMMS capacities below 14.2 hp	£91
		RBM-HY2043E		VRF 2-Pipe 4-Way Header	SMMS capacities 14.2-25.2 hp	£99
		RBM-HY1083E		VRF 2-Pipe 8-Way Header	SMMS capacities below 14.2 hp	£128
		RBM-HY2083E	VRF	VRF 2-Pipe 8-Way Header	SMMS capacities 14.2-25.2 hp	£124
		RBM-HY1043FE		VRF 3-Pipe 4-Way Header	SHRM capacities below 6.4 hp	£128
		RBM-HY2043FE		VRF 3-Pipe 4-Way Header	SHRM capacities 6.4-14.2 hp	£128
		RBM-HY1083FE		VRF 3-Pipe 8-Way Header	SHRM capacities 14.2-25.2 hp	£201
		RBM-HY2083FE		VRF 3-Pipe 8-Way Header	SHRM capacities above 25.2 hp	£207

ACCESSORIES

Accessories - Piping Kits: Y-Joints

Y-Joints	RBM-BY55E	VRF	VRF 2-Pipe Y-Joint	SMMS capacities below 6.4 hp	£56
	RBM-BY105E		VRF 2-Pipe Y-Joint	SMMS capacities 6.4-14.2 hp	£70
	RBM-BY205E		VRF 2-Pipe Y-Joint	SMMS capacities 14.2-25.2 hp	£114
	RBM-BY305E		VRF 2-Pipe Y-Joint	SMMS capacities above 25.2 hp	£152
	RBM-BY55FE		VRF 3-Pipe Y-Joint	SHRM capacities below 6.4 hp	£64
	RBM-BY105FE		VRF 3-Pipe Y-Joint	SHRM capacities 6.4-14.2 hp	£88
	RBM-BY205FE		VRF 3-Pipe Y-Joint	SHRM capacities 14.2-25.2 hp	£131
	RBM-BY305FE		VRF 3-Pipe Y-Joint	SHRM capacities above 25.2 hp	£217

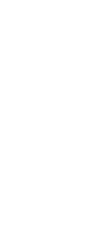

Accessories - Miscellaneous: Coil Coatings and Case Sections

Anti-Corrosion Coating	CACC-DF	RAV	Double Fan CDU Coil Anti-Corrosion Coating	RAV-GM160#, RAV-GP110#-160#, Mini SMMS	£384
	CACC-DF1		Double Fan CDU Coil Anti-Corrosion Coating	RAV-GM224#_GM280#	£531
	CACC-SF	RAV - RAS	Single Fan CDU Coil Anti-Corrosion Coating	RAS, RAV-GM30#-140#, RAV-GP40#-80#	£280
	CACC-VRF	VRF	VRF Module CDU Coil Anti-Corrosion Coating	8-12 hp SMMS, 8-10 hp SHRM	£723
	CACC-VRF1		VRF Module CDU Coil Anti-Corrosion Coating	14-16 hp SMMS, 12-14 hp SHRM	£797
	CACC-VRF2		VRF Module CDU Coil Anti-Corrosion Coating	18-22 hp SMMS, 16-20 hp SHRM	£1,092
	CACC-VRF3		VRF Module CDU Coil Anti-Corrosion Coating	≥46 hp SMMS, ≥36 hp HE SMMS, 42 hp SHRM, ≥24 hp HE SHRM	£1,195

Split Case/Sections	VRF	TTS-VRFSD-ML	Split Case 2 Main Sections	VRF split case UK mainland	£3,844
		TTS-VRFSD-OS	Split Case 2 Main Sections	VRF split case non-UK mainland	£5,113
		TTS-VRFSD-MLF	Split Case Multiple Sections	VRF split sections UK mainland	£6,116
		TTS-VRFSD-OSF	Split Case Multiple Sections	VRF split sections non-UK mainland	£7,226

ACCESSORIES

Accessories - Miscellaneous: Spigots, Pumps, Filters

 	RBC-VCK1	VRF - RAV	Vertical Conversion Kit	Standard Ducted indoor unit conversion to vertical mount	£472
	TCB-BC1602UE		Air Discharge Direction Kit	4-Way Cassette air outlet shield for 2- or 3-way blow	£62
	TCB-BC1603UE	RAV	Air Discharge Direction Kit	Smart Cassette air discharge direction kit	£62
	TCB-SP1602UE	VRF - RAV	Cassette Spacer	4-Way Cassette height spacer for RBC-U31PGP(W)-E	£164
	TCB-SP1603UE	RAV	Cassette Spacer	Smart Cassette height spacer for RBC-U41PG(W)-E	£164
	TCB-FF101URE2		Inlet Spigot	Compact Cassette auxiliary fresh air flange	£43
	TCB-FF151US-E		Inlet Spigot	2-Way Cassette auxiliary fresh air flange	£52
	TCB-GB1602UE		Inlet Spigot	4-Way Cassette auxiliary fresh air flange	£62
	TCB-SF160C6BPE		Discharge Spigots 4 x 200 mm	Ducted units (4-6 hp)	£173
	TCB-SF56C6BPE		Discharge Spigots 2 x 200 mm	Ducted units (0.8-2 hp)	£116
	TCB-SF80C6BPE		Discharge Spigots 3 x 200 mm	Ducted units (2.5-3.2 hp)	£136
	818F0050	RAS-RAV-VRF	Ultra Pure Filter (Pair)	RAS, RAV and VRF High-Wall units (Quantity required - indoor width ≤ 800 mm x 1; indoor > 800 mm x 2)	£7
	TCB-FC1403UW-E		Filter Chamber	2-Way Cassette filter chamber (AP0362-0562)	£608
	TCB-FC283UW-E		Filter Chamber	2-Way Cassette filter chamber (AP0072-0152)	£362
	TCB-FC803UW-E		Filter Chamber	2-Way Cassette filter chamber (AP0182-0302)	£519
	TCB-FCY100DE		Filter Chamber	Fresh Air Intake filter chamber (AP0721-0961)	£720
	TCB-FCY51DFE		Filter Chamber	Fresh Air Intake filter chamber (AP0481)	£428
	TCB-GFC1602UE2	VRF - RAV	Filter Chamber	4-Way Cassette fresh air and filter chamber	£153
	TCB-GFC1603UE	RAV	Filter Chamber	Smart Cassette fresh air and filter chamber	£164
	TCB-LF1403UW-E		Long-Life Filter	2-Way Cassette super-long-life pre-filter (AP0362-0562)	£451
	TCB-LF283UW-E		Long-Life Filter	2-Way Cassette super-long-life pre-filter (AP0072-0152)	£257
	TCB-LF803UW-E		Long-Life Filter	2-Way Cassette super-long-life pre-filter (AP0182-0302)	£422

ACCESSORIES

Accessories - Miscellaneous: Filters, Heater Kits, Painted Finishes

Air Discharge, Filtration and Inlet	TCB-LK1401D-E		Long-Life Filter	Ducted unit long-life filter kit (4-6 hp)	£75
	TCB-LK2801DP-E	VRF - RAV	Long-Life Filter	Ducted unit long-life filter kit (8-10 hp)	£116
	TCB-LK801D-E		Long-Life Filter	Ducted unit long-life filter kit (2-3 hp)	£58
Air-to-Air Heat Exchanger	TCB-PF4D-1E	VRF	Long-Life Filter	Fresh Air Intake long-life pre-filter (Quantity required: AP0481 x 2)	£130
	TCB-UFM4D-1E		High-Efficiency Filter	Fresh Air Intake high-efficiency filter 65% (Quantity required: AP0481 x 2)	£422
	TCB-UFH8D-1E		High-Efficiency Filter	Fresh Air Intake high-efficiency filter 90% (Quantity required: AP0481 x 2)	£425
	TCB-PF3DE		Long-Life Filter	Fresh Air Intake long-life pre-filter (Quantity required: AP0721-AP0961 x 2)	£182
	TCB-UFM3DE		High-Efficiency Filter	Fresh Air Intake high-efficiency filter 65% (Quantity required: AP0721-AP0961 x 2)	£570
	TCB-UHF7DE		High-Efficiency Filter	Fresh Air Intake high-efficiency filter 90% (Quantity required: AP0721-AP0961 x 2)	£607
Painted Finish	RBC-VNMC-PE	VN	Heater Controller Kit	Control for VN-M150-800HE heater kits	£403
	RBC-VNMC-HE1		Heater Controller Kit	Control for VN-M1000HE1, VN-M1500HE1 and VN-M2000HE1 (VN-M1500HE1 and VN-M2000HE1 heater procured locally)	£308
	RBC-VNMH1-PE		100 mm Heater Kit 1 kW	VN-M150HE heat exchanger	£356
	RBC-VNMH2-PE		150 mm Heater Kit 1 kW	VN-M250HE and VN-M350HE heat exchanger	£365
	RBC-VNMH3-PE		200 mm Heater Kit 2 x 1 kW	VN-M500HE and VN-M650HE heat exchanger	£412
	RBC-VNMH4-PE		250 mm Heater Kit 2 x 1 kW	VN-M800HE and VN-M1000HE1 heat exchanger	£422
	RBC-VNWPH01		Enclosure	VN-M weatherproof housing for VN-M150HE-VN-M350HE	£2,508
	RBC-VNWPH02		Enclosure	VN-M weatherproof housing for VN-M500HE/VN-M650HE	£2,994
	RBC-VNWPH03		Enclosure	VN-M weatherproof housing for VN-M800HE/VN-M1000HE1	£3,481
	RBC-VNWPH04		Enclosure	VN-M weatherproof housing for VN-M1500HE1/VN-2000HE1	£4,174
